catherine has talked to charles duncan at pres. personnell. charles wants to be talking to someone at ustr who is working on this commission. he apparently called over here (to whom i don't know) and no one had heard of the commission. charles' phone number is [REDACTED]. what need to happen next on the members is slightly different than what she said before. 1. a memo listing the potential candidates needs to go to the pres. the pres is sometimes active and nixes or changes names. 2. once the pres approves or changes the names, the initial investigation is started (irs, fbi and financial forms). at that time pres. personnell and ustr work together on a press release on the members. not a good idea to tell potential members that they're on the list until pres. approval is obtained.
